PROFILE SUMMARY

Detail-oriented and results-driven Software Developer with hands-on experience in full-stack development. Proficient in **React, React Native, Node.js, and Laravel**, with a strong focus on building scalable web and mobile applications. I am skilled in **RESTful APIs, database management, and Git-based collaboration**. I am adept at problem-solving in fast-paced environments and passionate about writing **clean, maintainable code** that drives team success.

PROFESSIONAL EXPERIENCE

- **Web Developer / IT Support (Part-Time) – Ahava Middle East, UAE**
2025 July
 - **Associate Software Engineer – Innovative-e Private Limited, Sri Lanka**
2025 March – 2025 May
 - **Trainee Software Engineer - Innovative-e Private Limited, Sri Lanka**
2024 September - 2025 March
 - **Software Engineer Intern - Innovative-e Private Limited, Sri Lanka**
2024 March – 2024 September
-

SKILLS

- **Programming Languages**
JavaScript, TypeScript, PHP, Python, C# , C++
- **Frameworks**
React, React native, Next.js, Node.js, Laravel, Django, My SQL, MongoDB, Arduino
- **Soft skills**
Teamwork skills, Project handling skills, Fast Learner, can adapt to any new technology quickly

PROJECTS INVOLVED

AccessPro

- Independently developed a full-stack system featuring a React Admin Dashboard, React Native app, Node.js backend, and IoT integration.
- Designed and built an Arduino-based IoT device for real-time access control and monitoring.
- Deployed the mobile app to Google Play and App Store, ensuring cross-platform performance.
- Integrated Microsoft Office 365 SSO for secure authentication across web and mobile platforms.

GCeC

- Contributed to a Student Management System built with Laravel and Filament PHP for efficient backend and admin interface development.
- Developed a Progressive Web App (PWA) with web push notifications, providing real-time updates and cross-device accessibility.

iFAB (Intelligent First Aid Box)

- Researched and developed a smart first aid system integrating weight sensors and AI-based object detection for intelligent inventory tracking.
- Built a React Admin Dashboard with a .NET backend, ensuring scalability and high performance.
- Designed and optimized the database schema for data integrity, efficient queries, and analytics support.

Ahava Middle East Marketing Site (<https://ahavamiddleeast.ae/>)

- Developed a modern marketing website using Next.js and TypeScript, focusing on performance and maintainability.
- Gained end-to-end experience in project design, development, and deployment, delivering a fully responsive and production-ready site.
- Implemented SEO optimization to improve search visibility and site ranking.

Ahava Innovations IT Solutions Site (<https://www.ahavainnovationsits.ae/>)

- Built a highly responsive and interactive website using Next.js and TypeScript, with smooth animations and modern UI design.
- Enhanced user engagement through dynamic layouts and optimized performance across all devices.

Ahava Management App

- Developed a management system using Next.js with MongoDB as the backend database.
 - Designed and implemented CRUD operations, data management, and user interface components for efficient workflow management.
 - Gained experience in full-stack development, database integration, and state management within a modern web application.
-

EDUCATION QUALIFICATIONS

- **MBA in Data Analytics and AI**
Britts Imperial University College – Sharjah (Studying)
 - **BEng (Hons) Software Engineering Top-up**
London Metropolitan University (2023)
 - **Higher National Diploma in Computing**
Esoft Metro Campus (2021-2022)
 - **GCE A/L (2023)**
Accounting - C
Business Studies – C
Information Communication Technology – B
